Janesville Weekly Gazette.

TERMS PER YEAR, - - - $2,00.
IN ADVANCE.

THIS edition of the GAZETTE is one of the largest weekly papers in the State. Having the matter published in the Daily to cull from in making it up, we are enabled to furnish a paper of surpassing excellence. We shall give in each number a correct review of the markets, and make the paper a complete reflex of County, State and general news.

THE NEWS

In our dispatches to-day will be found some items of news from the South which seem to indicate that a large body of our forces under Sherman, are moving in an important expedition, of which Mobile is doubtless the destination. We may reasonably expect to hear stirring news from that quarter soon.

Our Government is about asking permission of England to pursue the Sioux on to British soil, the more effectually to annihilate them.

We have a batch of foreign news of more than ordinary significance. If the nations across the water are not cautious they will have "intervention" enough without putting themselves out of the way to find it.

The rebel General Imboden is reported to have crossed the Potomac into Pennsylvania with a strong force.

A rumor prevails that we are in the eve of a war with France. The story though somewhat improbable, may not be wholly baseless.

A bill to facilitate the payment of wounded and deceased soldiers, has passed the House.

The blockade runner *Vesta* has been burned with all of Gen. Lee's store clothes.

STATE NEWS.

The Oshkosh *Courier* of Jan. 30th says: "We are having the biggest kind of a snow storm. It has snowed up to this time, (9 o'clock A. M. Saturday) for 28 hours continually, interspersed occasionally with fine hail, and is now snowing "big guns." We saw snow drifts this morning from 15 to 40 feet high. Some may think this a pretty big story, but it is true nevertheless. The boys just down from the pinery, report any amount of snow in the woods, and all hands busy as bees getting in logs. The price of logs will be pretty steep next spring owing to the high price that has to be paid for labor and all kinds of supplies needed in the woods. Hay brings, we understand, $25 a ton, and everything in proportion."——Mr. Chester Steele of the firm of Atkins, Steele & White and Samuel Chandler, with Sexton, Brother & Co., of Milwaukee, while attempting to cross the Mississippi into Minnesota, on the ice, with a span of horses and sleigh, broke through and got a thorough wetting, but succeeded in saving themselves, one horse and the sleigh.——A call is made by the President of the Dane Co. Agricultural Society, for a meeting of that organization, to revive its efficiency after a season of quiescence.

The Reaction at the South.

When the reaction begins fairly to work in the Southern States, we shall see a much more radical set of "Abolitionists" there than can be found anywhere in the North. We already see plain indications of this feeling, and it will work like leaven and soon leaven the whole lump. Wherever reconstruction is attempted, the prime movers seem to take it for granted that their State must come in without slavery. The contrary condition does not seem to be once thought of. One of these days Arkansas and Louisiana will send lecturers into the Northern States to convert the poor Copperheads that are so far behind the age. The time is but a little way off when these latter named gentlemen will want to destroy all record of their past conduct and opinions. Politically, they will call on the rocks and mountains to fall on them and cover them from the frown of the indignant anti-slavery men of the South.

A MISTAKE.—We received an exchange paper the other day, and without looking at its title or place of publication, judged from its dingy look, but more particularly from its frequent use of the word "Jacobins" when it referred to the administration party, that some one had sent us a Richmond paper. But on looking at the name of the paper, we ascertained it to be the Peoria Morning *Mail*, published by Charles H. Wright, formerly we believe connected with the Democratic *Standard*, published in this city.

A CONFESSION OF WEAKNESS.—Burleigh, of the Boston *Journal* writing from New York, Jan. 13th, says:

"I have just seen a gentleman from the South. He has in his possession an original letter from the rebel Secretary of War to Gen. Kirby Smith, authorizing him to trade with the Federal Government for the necessaries of life. The schedule annexed is interesting and affords an insight into the strength and sufferings of the rebel army. The requisitions are based on the requirements of thirty thousand men.—Thirty thousand coats, pants and shoes, sixty thousand shirts, and food of all kinds, including meat. The Secretary of War authorizes Kirby Smith to exchange three pounds of cotton for four pounds of meat! He expresses his regret that he is obliged to break his own rules, but that necessity knows no law. This authority to trade with Federals is significant. Both of the documents are curious. I will get you a copy if I can."

A BEAUTIFUL PHENOMENON.—On Saturday morning, directly after sunrise, there appeared on each side of the sun, at a distance of fifteen or twenty degrees, a brilliant "parhelion," or mock sun, with rainbow-tinged projection, curving slightly inward nearly to the horizon, and upward five or ten degrees. These projections looked like the outlines of a circular rainbow which had been commenced and carried on like a "fancy" railroad as far as there was material to make it, and then stopped, and in the centre of each fragment was the blazing "mock sun," hardly less brilliant than the original, and looking very like that great astronomical character when seen through a light mist. About nine o'clock, or a little after, they were most brilliant and disappeared a little after ten.—*Indianapolis, Ind., Journal.*

THE JUDGESHIP IN THE 5TH CIRCUIT.—The term of Judge Cothren, of the 5th Circuit expires in June next, the election of his successor occurring at the time of town elections in April. Hon. J. Allen Barber, of Grant county, is prominently mentioned as a candidate, and, in response to calls already addressed to him asking his consent to the use of his name in such connection, has announced himself a candidate subject to the action of a Union convention, if one shall be called.—*Madison Journal.*

ONE OF THE GIRLS.—Some lady in New York is getting patriotic and plucky. She writes to Supervisor Blunt as follows:

JANUARY 2, 1864.

O. BLUNT—Sir: Pardon me for the liberty I have taken: but I am an able-bodied woman, and if you will enlist me I will put on soldiers' clothing and go. There shall never be any one the wiser until my term has expired, if I could secure the doctor, and that is done very easy, I suppose. I think I should make a better soldier than a great many who draw on the blue clothes and always talk and never fight. Yours, &c.,

Miss HATTIE——, 57 ——st.

SHELLS FROM THE SKIES.—Keep a bright look-out for over-head mischiefs. A chap at the South proposes to launch into the upper regions what he calls a "Bird of Art," or flying machine, with which he intends to cruise about, above common range, and drop shells into Yankee camps and ships. Of course he needs a little cash to complete his plan. Why not interest Lamer, with his new powder made of plaster and boiling water.

A BABIES' CAR PROPOSED.—"Ringbolt" the New York correspondent of the Boston *Courier*, claims to have originated the idea of a car for babies on railroads. He says: "It is too much to ask for a separate car at first, let the experiment be tried on a small scale. Make one end of a passenger car a nursery. Let it be separated by a dry-tight compartment. Let it be supplied with an open stove, with porringers and skillets. Let there be a locker for pap-making ingredients, and let it contain all the other infantile paraphernalia, which the fruitful wives that hang their clusters about the directors' houses will suggest to them with more force and propriety than my limits or knowledge will permit."

—When you go to kiss, first grasp with haste around the waist, and hug her tight to thee; and then she'll say "Do go away, do; won't you let me be?". Then, oh what bliss! but never miss so good a chance as that; but make a dash, as quick as flash, and, heavens!—hold my hat!

—A lady made a call upon a friend who had lately been married. When her husband came home to dinner, she said "I have been to see Mrs. ——." "Well, I suppose she is very happy." "Happy? I should think she ought to be!—she has a camel's hair shawl, two-thirds border!"

The school of Miss Clark is large and interesting. Its patrons take a commendable interest in its advancement, as is evident not only from their frequent visits to it, but also from the number of maps and charts that line the walls of the school-room. By their excellent management, and it also might be said, by their good economy in hiring generally superior teachers, the attendance of their larger pupils is retained, so that here can be found, what is too rare in the district school, an advanced class in the elementary branches of a school education. All of the scholars are worthy of more than ordinary praise for their correct manners and recitations. They reflect in all their school exercises their teacher's promptness and activity.

Mr. Knight is alive with interest in his school duties and has infused to a considerable extent this same spirit into his pupils. Miss Knowles gives promise of being a teacher of the first grade. Her management is excellent. She cultivates in her school a correct articulation. Mrs. Flint is kind and attentive to her scholars and seems devoted to their interests. The faithfulness of most of the remaining teachers is worthy of commendation.

STATE FIREMEN'S ASSOCIATION.—We learn from the Secretary of the Firemen's Association of Wisconsin that the association now represents nearly all the departments in this State, and that the firemen of Wisconsin will undoubtedly have many re-unions which will redound to their efficiency, and be a great credit to the communities in which they belong. The principal objects of this association are, to have uniform rules, provide for and have annual tournaments, and to promote friendship and sociality among all the companies of the State.

The meeting held in this city last September was represented by companies from nearly all the departments from the larger cities, a constitution was adopted, which we published at that time in the proceedings, and the association elected the following officers which put the same on a permanent footing:

President—John Peacock, of Fond du Lac.

Vice-President—Geo. B. McGie, of Madison.

Secretary—John C. Spencer, of Janesville.

Treasurer—O. J. Clark, of Oshkosh.

The meeting adjourned to meet in Madison on the 17th of February inst., when the organization will be completed and arrangements made for a tournament next summer. This part of the proceeding will unquestionably interest all the firemen of the State, as the excitement and pleasures connected therewith create new life and energy among those who glory in the "Life of a Fireman;" as well as the larger property holders, and those who have never had the opportunity of witnessing the trials of fire engines and races of hose and hook and ladder companies.

A PAPER MILL.—We have often wondered why there was not a paper mill in this city. There is no better location for one in the State. There is abundance of water power, the water to be used in the manufacture of the paper is clear and nice, and the railroad facilities for transporting material to and shipping paper from the mill are as good as the best. Yet while Beloit has two or three mills in successful operation, Rocton, near by Beloit, one or two and Whitewater one, this place has none. We have several times heard of men "prospecting" here for a site for a mill, but for some reason or other the enterprise ended there. We would invite the attention of capitalists to this matter; they cannot find a better location.

JANESVILLE SUNDAY SCHOOL UNION.—In answer to a call through the GAZETTE, the friends and advocates of Sunday Schools met at the lecture rooms of the Baptist church on Monday evening. The usual officers being named, the formation of a City S. S. Union was generally discussed and agreed upon.

The Superintendents of the Sunday Schools of the city, with Mr. Henry Pullan as chairman, were made a committee to draft a constitution and report to an adjourned meeting to be held at the same place on Monday, Feb. 8th, at 7½ o'clock, P. M.

SLIGHTLY TOO FAST.—In our yesterday's issue we announced the arrival in town of the Legislative visiting committee to the Blind Asylum; but after our paper was published, found that we had been rather fast in our announcement, as only a portion of the committee came down on the train Saturday. Other members of the committee are expected to-day or to-morrow.

EVENING JOURNAL ALMANAC FOR 1864.—We have received from the publishers, Messrs. Weed, Parsons & Co., the Evening Journal Almanac for 1864. It is replete with valuable statistical information, and appears to be more complete, if any thing, than the famous Tribune almanac. The price for single copies is 15 cents; 11 copies for $1.00; 100 copies, post paid, $9.00; by express, $8.00 per 100.

An Interesting Conversation, and What Came of It.

"Good morning, neighbor Hoyt."

"Good morning, Mr. Ward, good morning. Are you just on the way from town?"

"Yes, I went in yesterday."

"What's the news, and what did you get for wheat?"

"Well, I heard something about running Ben Butler for the next President, but I was in a hurry, so hurrahed for Old Abe and left. I got $1.15 for my wheat."

"That's pretty good. By the way, neighbor Hoyt, have you got any good seed wheat to sell me next spring?"

"Well, yes, I guess I can spare you some. *How much do you want?*"

"Well, I shall want to sow 80 acres; twice 80 is 160. I shall want 160 bushels."

"What! 160 bushels on 80 acres? You don't mean to say you sow two bushels to the acre, do you?"

"Oh! yes. I always sow two bushels of wheat to the acre."

"But do you think it necessary to sow so much to the acre?"

"Well, you see, there is a good deal that don't grow to amount to anything, because we can't cover it up deep enough to keep the rains from washing it out of the ground. I remember last spring when I sowed my ten acre lot, and dragged it both ways, and left it in good shape, all covered nicely. There came a smart shower on it three or four days after, and the next day I was going across it and I declare there was sight of it on top of the ground, and of course we have to sow enough to allow for what we don't cover, and what the rain uncovers."

"Oh! yes, Mr. Ward, that's the way with broadcast sowing, I know. But, why don't you get a drill, and then you would save all that waste? I have had one of Richardson's drills for two years, and I don't sow but one bushel and a half to the acre, and I think it is enough, and as good as two bushels broadcast."

"But how is that, neighbor Hoyt. I don't *see* how you can make that out."

"Well, you see the drill is made so you can gauge it just any depth you wish. Then, you know, the drill leaves the wheat in a little furrow, so that when it rains or the wind blows it covers the wheat deeper instead of uncovering it."

"Well, now I like that first rate. I've heard about these drills but never thought they were what they were cracked up to be. How is it about working them, some say it is very hard work for the team?"

"Well, you see there is a good 'eal of difference in drills. Mine is one of Richardson's 11 tooth, made two years ago, and it runs very light. I would as soon my colts would draw it as to draw a drag."

Now I dont see how that is, for neighbor Bennett has a 9 tooth drill and he told me it was very hard work for his large team."

"Well, I guess his is one of the *Ohio* Drill, I am told that they do run hard."

"But what should make the difference, I wonder?"

"Oh! it is the way they a geared. If you should see the machine you would see at once."

"How does Richardson sell his drills this year?"

"Well, I paid eighty dollars for mine two years ago, but I guess they are higher now, for he has improved them very much this year."

"Well, I am just going to town, and I'll go and see Richardson; if I should get a drill it would save me 40 bushels of wheat, according to your figures, that would be forty dollars at least."

"That's so. Then there is your oats and barley besides."

"Well, you may save me 120 bushels of wheat, and I will get one of Richardson's Drills. I see he says we need not keep them if they don't work well. Good day."

RUMOR OF WAR WITH FRANCE!

FROM WASHINGTON.

WASHINGTON, Feb. 1st.—Senator Trumbull's report from the judiciary committee, of facts connected with the release of Jas. M. Hunt from the old capitol prison, and the connection of Senator Hale therewith, declares the employment of the latter to be purely professional, and that he violated no law in accepting a fee in defence of Hunt before any court, civil or military, or even for endeavoring to procure his discharge from prison. It is held, in the report, improper to accept compensation for the prosecution of claims or for obtaining contracts or offices or for transacting business in the several Departments of the Government, but not for accepting fees for services in judicial bodies. A message from the President was transmitted to the Senate to-day enclosing correspondence relative to the request that permission be given to our military authorities to pursue the Sioux Indians in the Hudson Bay Territory.

WASHINGTON, Feb. 1st.—*Herald's* special.—The report of the rebel authorities being desirous to propose terms of peace is a canard. Rebel deserters state that if the President's amnesty proclamation was allowed to reach Lee's army, a great portion would throw down their arms and enter our lines.

WASHINGTON, Feb. 1.—*World's* Special.—It is rumored in official circles that we are upon the eve of a war with France. Mr. Seward is said to have pursued a course towards France, concerning the Florida, Rappahannock and rams known to be building in France for the rebels, as to elicit a reply from the French foreign minister in accordance with which the United States must either abandon its pretensions or go to war to maintain them. Mr. Everts was, it is stated, instructed to demand of France the surrender of the belligerent rights accorded to rebels, and it is certain there is some serious difficulty with the French Cabinet.

[This may be taken for what it is worih.—Signed—REPORTER.]

FROM THE SOUTH.

FORTRESS MONROE, Jan. 21.—The flag of truce steamer *New York* arrived last evening. Four Union officers—one Colonel and three Captains—were sent down on their parole by the rebel government. About twenty refugees from Richmond arrived to-day via Yorktown. Richmond papers of the 20th are received. The *Enquirer* of that date contains the following:

MOBILE, Jan. 27.—On the 23d, Gen. Wirt Adams' cavalry entered Gelsertown, near Natchez, and captured 35 prisoners, 60 wagons and teams, a lot of cotton, and about 80 negroes.

MOBILE, Jan. 25.—Twelve transports have passed down the Mississippi within the past two days. Gen. Sherman and his staff accompanied them.

The *Enquirer* of the 27th has the following:

PASAQUOILA, Jan. 25th.—The enemy's gunboats, with six transports, entered the mouth of the river on the 7th inst., and proceeded up the river, taking possession of Madisonville and four mills which our forces neglected to burn. They threw out pickets to Covington road, within two miles of town; also on the Madisonville road on the east side of the river. They are engaged in raising hulls of several vessels sunk in the river by our authority. Our forces withdrew towards Franklinton.—Four gunboats were in sight yesterday, three off Round Island. Three others have proceeded towards Ship Island.

NEW YORK, Feb. 2d.—Richmond papers contain an account of the running ashore and burning, by her crew, of the blockade runner Vesta, with a valuable cargo of army supplies, including a splendid uniform for Gen. Lee from his admirers in London. This occurred near Wilmington on the 10th of January. The Vesta was a new double screw steamer on her first voyage.

FROM LEAVENWORTH.

ST. LOUIS, Feb. 2.—A Leavenworth dispatch to the *Democrat* says: The Legislature passed resolutions asking that the southern portion of western tier of counties in Missouri be attached to the department of Kansas.

Gen. Curtis has gone to Fort Scott.

A very large meeting of ladies and gentlemen was held last night at Mercantile Library Hall, to make arrangements for holding a great Mississippi Valley Sanitary Fair the coming spring. Gen. Rosecrans was elected President; Gov. Hall, Mayor Tilley, and Gen. Fisk, Vice Presidents; President Lincoln, Vice President Hamlin, the Governors of all loyal States, and General Grant, honorary members.—A large Executive Committee, composed of gentlemen and ladies, was also elected. Speeches were made by Gen. Rosecrans and others. A strong determination is manifested by all to go to work earnestly and enthusiastically to make this the greatest Fair ever held.

AFTERNOON DISPATCHES.

IMBODEN ACROSS THE POTOMAC!

Bill Passed to Pay Deceased and Wounded Soldiers.

FROM HARRISBURG.

HARRISBURG, Feb. 1.—Special to *Tribune*.—A report prevails to-night that Imboden had crossed the Potomac eight miles below Hancock and was aiming at Chambersburg and Cumberland Valley, and will reach Harrisburg, if possible. He has no artillery or infantry except two sections of a six-pound battery. There is no adequate force to pursue or interrupt him.

FROM WASHINGTON.

WASHINGTON, Feb. 2.—Greene C. Bronson and others *vs.* the La Crosse & Milwaukee Railroad—argument in this case is being continued in the Supreme Court to-day.

HOUSE.—On motion of Mr. Fenton, the Secretary of the Navy was requested to inform the House whether supplies for the navy during the past year were purchased upon contract? If not, what proportion and kinds were purchased in open market, &c., and inform the House what alterations in the law are necessary.

Mr. Stevens from Ways and Means committee, reported a bill of appropriations for the support of the army for the year ending June 1865.

The House passed the bill to facilitate the payment of bounties and arrears of pay due wounded and deceased soldiers.

The House resumed the consideration of the bill amendatory of the confiscation act.

FROM MISSOURI.

ST. LOUIS, Feb. 2.—Both Houses adjourned yesterday, to attend the funeral of Gov. Gamble in this city to-morrow.

Lieut. Gov. Hall's message to the Legislature announcing the death of Gov. Gamble concludes as follows:

"My chief and constant efforts shall be to co-operate with the Federal Government in its efforts to suppress the existing rebellion. In doing this I shall not be solicitous to find fault with the President, Congress or our Generals in the field. I shall rather defer my objections to whatever I may think blameworthy in acts to more propitious periods, and trust by a cordial support of the Government of the United States to contribute something to the restoration of peace."

LATER FROM EUROPE.

HALIFAX, Feb. 1.—The *Hibernia*, from Galway the 19th ult., has arrived here.—Her news is important. The steamship *Louisiana*, from Liverpool, bound to New York, put back to Queenstown on the 18th inst., disabled. Her decks were swept and seven of her passengers and ten of her crew were washed overboard.

Denmark has rejected the Austro-Prussian ultimatum. The Austrian and Prussian ambassadors are reported to have quitted Copenhagen.

On the 18th, the Emperor of Austria reviewed 200,000 troops, to march immediately for Schleswig.

Prussian military preparations are progressing vigorously. The French Chambers continued to debate the address to the Emperor Napoleon.

It is stated that the amendment in regard to Mexico, will be met by a ministerial statement. Since the 1st of Jan'y, all the expenses of the French troops have been borne by the Mexican Government.

Archduke Maximilian will visit Paris, as the guest of the Emperor, and will be received with appropriate honors.

Garibaldi has issued a proclamation announcing the formation of a Committee to promote Italian Union, and inviting all Italians to rally around it.

The *Post* says the Austrian and Prussian representatives will doubtless quit Copenhagen, and war may be formally declared, but it is still possible that active hostilities may not instantly follow.

Austria nor Prussia cannot possibly wish for a serious war with Denmark, and we suspect their present policy, however dangerous, is pursued from a sole desire, in consequence of their defeat in the Diet, to become, so far as regards other powers, masters of the present situation.

The allied powers of Austria and Prussia on one side, and Denmark on the other, would be the belligerent party, and the German Confederation, that is to say minor German powers, would no longer have a right to interfere in the pending dispute. Austria and Prussia would be the sole arbitrators of the conditions on which they would be willing to conclude peace.

A Denmark telegram to the *Morning Herald* says envoys of Prussia and Austria have presented an ultimatum, calling on the Danish Government to withdraw the November Constitution. The Danish Government has rejected the demand. The envoys left Copenhagan at 2 o'clock in a private steamer.

The London Daily *News* says it will probably be proposed early in the session to appoint a Government Commission to consider the question of a railroad in the metropolis.

VERY LATEST PER HIBERNIAN.

LONDON, Jan. 19.—The London *Times* city article says summary notification sent to Denmark by Austria and Prussia for the withdrawal of the obnoxious constitution on pain of immediate occupation of Schleswig, produced further depression in all the markets yesterday, which was aggravated by the increasing intensity of the decline of gold from the Bank of France, and the probability that its action on this side may induce an early return of the rate of discount to 8 per cent.

THE NEWS

In our dispatches to-day will be found some items of news from the South which seem to indicate that a large body of our forces under Sherman, are moving in an important expedition, of which Mobile is doubtless the destination. We may reasonably expect to hear stirring news from that quarter soon.

Our Government is about asking permission of England to pursue the Sioux on to British soil, the more effectually to annihilate them.

We have a batch of foreign news of more than ordinary significance. If the nations across the water are not cautious they will have "intervention" enough without putting themselves out of the way to find it.

The rebel General Imboden is reported to have crossed the Potomac into Pennsylvania with a strong force.

A rumor prevails that we are in the eve of a war with France. The story though somewhat improbable, may not be wholly baseless.

A bill to facilitate the payment of wounded and deceased soldiers, has passed the House.

The blockade runner *Vesta* has been burned with all of Gen. Lee's store clothes.

STATE NEWS.

The Oshkosh *Courier* of Jan. 30th says: "We are having the biggest kind of a snow storm. It has snowed up to this time, (9 o'clock A. M. Saturday) for 28 hours continually, interspersed occasionally with fine hail, and is now snowing "big guns." We saw snow drifts this morning from 15 to 40 feet high. Some may think this a pretty big story, but it is true nevertheless. The boys just down from the pinery, report any amount of snow in the woods, and all hands busy as bees getting in logs. The price of logs will be pretty steep next spring owing to the high price that has to be paid for labor and all kinds of supplies needed in the woods. Hay brings, we understand, $25 a ton, and everything in proportion."——Mr. Chester Steele of the firm of Atkins, Steele & White and Samuel Chandler, with Sexton, Brother & Co., of Milwaukee, while attempting to cross the Mississippi into Minnesota, on the ice, with a span of horses and sleigh, broke through and got a thorough wetting, but succeeded in saving themselves, one horse and the sleigh.——A call is made by the President of the Dane Co. Agricultural Society, for a meeting of that organization, to revive its efficiency after a season of quiescence.

The Reaction at the South.

When the reaction begins fairly to work in the Southern States, we shall see a much more radical set of "Abolitionists" there than can be found anywhere in the North. We already see plain indications of this feeling, and it will work like leaven and soon leaven the whole lump. Wherever reconstruction is attempted, the prime movers seem to take it for granted that their State must come in without slavery. The contrary condition does not seem to be once thought of. One of these days Arkansas and Louisiana will send lecturers into the Northern States to convert the poor Copperheads that are so far behind the age. The time is but a little way off when these latter named gentlemen will want to destroy all record of their past conduct and opinions. Politically, they will call on the rocks and mountains to fall on them and cover them from the frown of the indignant anti-slavery men of the South.

A MISTAKE.—We received an exchange paper the other day, and without looking at its title or place of publication, judged from its dingy look, but more particularly from its frequent use of the word "Jacobins" when it referred to the administration party, that some one had sent us a Richmond paper. But on looking at the name of the paper, we ascertained it to be the Peoria Morning *Mail*, published be Charles H. Wright, formerly we believe connected with the Democratic *Standard*, published in this city.

A CONFESSION OF WEAKNESS.—Burleigh, of the Boston *Journal* writing from New York, Jan. 13th, says:

"I have just seen a gentleman from the South. He has in his possession an original letter from the rebel Secretary of War to Gen. Kirby Smith, authorizing him to trade with the Federal Government for the necessaries of life. The schedule annexed is interesting and affords an insight into the strength and sufferings of the rebel army. The requisitions are based on the requirements of thirty thousand men.—Thirty thousand coats, pants and shoes, sixty thousand shirts, and food of all kinds, including meat. The Secretary of War authorizes Kirby Smith to exchange three pounds of cotton for four pounds of meat! He expresses his regret that he is obliged to break his own rules, but that necessity knows no law. This authority to trade with Federals is significant. Both of the documents are curious. I will get you a copy if I can."

A BEAUTIFUL PHENOMENON.—On Saturday morning, directly after sunrise, there appeared on each side of the sun, at a distance of fifteen or twenty degrees, a brilliant "parhelion," or mock sun, with rainbow-tinged projection, curving slightly inward nearly to the horizon, and upward five or ten degrees. These projections looked like the outlines of a circular rainbow which had been commenced and carried on like a "fancy" railroad as far as there was material to make it, and then stopped, and in the centre of each fragment was the blazing "mock sun," hardly less brilliant than the original, and looking very like that great astronomical character when seen through a light mist. About nine o'clock, or a little after, they were most brilliant and disappeared a little after ten.—*Indianapolis, Ind., Journal.*

THE JUDGESHIP IN THE 5TH CIRCUIT.—The term of Judge Cothren, of the 5th Circuit expires in June next, the election of his successor occurring at the time of town elections in April. Hon. J. Allen Barber, of Grant county, is prominently mentioned as a candidate, and, in response to calls already addressed to him asking his consent to the use of his name, in such connection, has announced himself a candidate subject to the action of a Union convention, if one shall be called.—*Madison Journal.*

ONE OF THE GIRLS.—Some lady in New York is getting patriotic and plucky. She writes to Supervisor Blunt as follows:

JANUARY 2, 1864.

O. BLUNT—Sir: Pardon me for the liberty I have taken: but I am an able-bodied woman, and if you will enlist me I will put on soldiers' clothing and go. There shall never be any one the wiser until my term has expired, if I could secure the doctor, and that is done very easy, I suppose. I think I should make a better soldier than a great many who draw on the blue clothes and always talk and never fight. Yours, &c.,

Miss HATTIE——, 57 ——st.

SHELLS FROM THE SKIES.—Keep a bright look-out for over-head mischiefs. A chap at the South proposes to launch into the upper regions what he calls a "Bird of Art," or flying machine, with which he intends to cruise about, above common range, and drop shells into Yankee camps and ships. Of course he needs a little cash to complete his plan. Why not interest Lamer, with his new powder made of plaster and boiling water.

A BABIES' CAR PROPOSED.—"Ringbolt" the New York correspondent of the Boston *Courier*, claims to have originated the idea of a car for babies on railroads. He says: "It is too much to ask for a separate car at first, let the experiment be tried on a small scale. Make one end of a passenger car a nursery. Let it be separated by a cry-tight compartment. Let it be supplied with an open stove, with porringers and skillets. Let there be a locker for pap-making ingredients, and let it contain all the other infantile paraphernalia, which the fruitful wives that hang their clusters about the directors' houses will suggest to them with more force and propriety than my limits or knowledge will permit."

—When you go to kiss, first grasp with haste around the waist, and hug her tight to thee; and then she'll say "Do go away, do; won't you let me be?" Then, oh what bliss! but never miss so good a chance as this, and, heavens!—hold my hat!

—A lady made a call upon a friend who had lately been married. When her husband came home to dinner, she said "I have been to see Mrs. ——." "Well, I suppose she is very happy." "Happy? I should think she ought to be!—she has a camel's hair shawl, two-thirds border!"

The school of Miss Clark is large and interesting. Its patrons take a commendable interest in its advancement, as is evident not only from their frequent visits to it, but also from the number of maps and charts that line the walls of the school-room. By their excellent management, and it also might be said, by their good economy in hiring generally superior teachers, the attendance of their larger pupils is retained, so that here can be found, what is too rare in the district school, an advanced class in the elementary branches of a school education. All of the scholars are worthy of more than ordinary praise for their correct manners and recitations. They reflect in all their school exercises their teacher's promptness and activity.

Mr. Knight is alive with interest in his school duties and has infused to a considerable extent this same spirit into his pupils. Miss Knowles gives promise of being a teacher of the first grade. Her management is excellent. She cultivates in her school a correct articulation. Mrs. Flint is kind and attentive to her scholars and seems devoted to their interests. The faithfulness of most of the remaining teachers is worthy of commendation.

STATE FIREMEN'S ASSOCIATION.—We learn from the Secretary of the Firemen's Association of Wisconsin that the association now represents nearly all the departments in this State, and that the firemen of Wisconsin will undoubtedly have many re-unions which will redound to their efficiency, and be a great credit to the communities in which they belong. The principal objects of this association are, to have uniform rules, provide for and have annual tournaments, and to promote friendship and sociality among all the companies of the State.

The meeting held in this city last September was represented by companies from nearly all the departments from the larger cities, a constitution was adopted, which we published at that time in the proceedings, and the association elected the following officers which put the same on a permanent footing:

President—John Peacock, of Fond du Lac.

Vice-President—Geo. B. McGie, of Madison.

Secretary—John C. Spencer, of Janesville.

Treasurer—O. J. Clark, of Oshkosh.

The meeting adjourned to meet in Madison on the 17th of February inst., when the organization will be completed and arrangements made for a tournament next summer. This part of the proceeding will unquestionably interest all the firemen of the State, as the excitement and pleasures connected therewith create new life and energy among those who glory in the "Life of a Fireman;" as well as the larger property holders, and those who have never had the opportunity of witnessing the trials of fire engines and races of hose and hook and ladder companies.

A PAPER MILL.—We have often wondered why there was not a paper mill in this city. There is no better location for one in the State. There is abundance of water power, the water to be used in the manufacture of the paper is clear and nice, and the railroad facilities for transporting material to and shipping paper from the mill are as good as the best. Yet while Beloit has two or three mills in successful operation, Rocton, near by Beloit, one or two and Whitewater one, this place has none. We have several times heard of men "prospecting" here for a site for a mill, but for some reason or other the enterprise ended there. We would invite the attention of capitalists to this matter; they cannot find a better location.

JANESVILLE SUNDAY SCHOOL UNION.—In answer to a call through the GAZETTE, the friends and advocates of Sunday Schools met at the lecture rooms of the Baptist church on Monday evening. The usual officers being named, the formation of a City S. S. Union was generally discussed and agreed upon.

The Superintendents of the Sunday Schools of the city, with Mr. Henry Pullan as chairman, were made a committee to draft a constitution and report to an adjourned meeting to be held at the same place on Monday, Feb. 8th, at 7½ o'clock, P. M.

SLIGHTLY TOO FAST.—In our yesterday's issue we announced the arrival in town of the Legislative visiting committee to the Blind Asylum; but after our paper was published, found that we had been rather fast in our announcement, as only a portion of the committee came down on the train Saturday. Other members of the committee are expected to-day or to-morrow.

EVENING JOURNAL ALMANAC FOR 1864.—We have received from the publishers, Messrs. Wood, Parsons & Co., the Evening Journal Almanac for 1864. It is replete with valuable statistical information, and appears to be more complete, if any thing, than the famous Tribune almanac. The price for single copies is 15 cents; 11 copies for $1.00; 100 copies, post paid, $9.00; by express, $8.00 per 100.

An Interesting Conversation, and What Came of It.

"Good morning, neighbor Hoyt."

"Good morning, Mr. Ward, good morning. Are you just on the way from town?"

"Yes, I went in yesterday."

"What's the news, and what did you get for wheat?"

"Well, I heard something about running Ben Butler for the next President, but I was in a hurry, so hurrahed for Old Abe and left. I got $1.15 for my wheat."

"That's pretty good. By the way, neighbor Hoyt, have you got any good seed wheat to sell me next spring?"

"Well, yes, I guess I can spare you some. How much do you want?"

"Well, I shall want to sow 80 acres; twice 80 is 160. I shall want 160 bushels."

"What! 160 bushels on 80 acres? You don't mean to say you sow two bushels to the acre, do you?"

"Oh! yes. I always sow two bushels of wheat to the acre."

"But do you think it necessary to sow so much to the acre?"

"Well, you see, there is a good deal that don't grow to amount to anything, because we can't cover it up deep enough to keep the rains from washing it out of the ground. I remember last spring when I sowed my ten acre lot, and dragged it both ways, and left it in good shape, all covered nicely. There came a smart shower on it three or four days after, and the next day I was going across it and I declare there was sight of it on top of the ground, and of course we have to sow enough to allow for what we don't cover, and what the rain uncovers."

"Oh! yes, Mr. Ward, that's the way with broadcast sowing, I know. But, why don't you get a drill, and then you would save all that waste? I have had one of Richardson's drills for two years, and I don't sow but one bushel and a half to the acre, and I think it is enough, and as good as two bushels broadcast."

"But, how is that, neighbor Hoyt. I don't *see* how you can make that out."

"Well, you see the drill is made so you can gauge it just any depth you wish. Then, you know, the drill leaves the wheat in a little furrow, so that when it rains or the wind blows it covers the wheat deeper instead of uncovering it."

"Well, now I like that first rate. I've heard about these drills but never thought they were what they were cracked up to be. How is it about working them, some say it is very hard work for the team?"

"Well, you see there is a good 'eal of difference in drills. Mine is one of Richardson's 11 tooth, made two years ago, and it runs very light. I would as soon my colts would draw it as to draw a drag."

Now I dont see how that is, for neighbor Bennett has a 9 tooth drill and he told me it was very hard work for his large team."

"Well, I guess his is one of the *Ohio* Drill, I am told that they do run hard."

"But what should make the difference, I wonder?"

"Oh! it is the way they a geared. If you should see the machine you would see at once."

"How does Richardson sell his drills this year?"

"Well, I paid eighty dollars for mine two years ago, but I guess they are higher now, for he has improved them very much this year."

"Well, I am just going to town, and I'll go and see Richardson; if I should get a drill it would save me 40 bushels of wheat, according to your figures, that would be forty dollars at least."

"That's so. Then there is your oats and barley besides."

"Well, you may save me 120 bushels of wheat, and I will get one of Richardson's Drills. I see he says we need not keep them if they don't work well. Good day."

RUMOR OF WAR WITH FRANCE!

FROM WASHINGTON.

WASHINGTON, Feb. 1st.—Senator Trumbull's report from the judiciary committee, of facts connected with the release of Jas. M. Hunt from the old capitol prison, and the connection of Senator Hale therewith, declares the employment of the latter to be purely professional, and that he violated no law in accepting a fee in defence of Hunt before any court, civil or military, or even for endeavoring to procure his discharge from prison. It is held, in the report, improper to accept compensation for the prosecution of claims or for obtaining contracts or offices or for transacting business in the several Departments of the Government, but not for accepting fees for services in judicial bodies. A message from the President was transmitted to the Senate to-day enclosing correspondence relative to the request that permission be given to our military authorities to pursue the Sioux Indians in the Hudson Bay Territory.

WASHINGTON, Feb. 1st.—*Herald's* special.—The report of the rebel authorities being desirous to propose terms of peace is a canard. Rebel deserters state that if the President's amnesty proclamation was allowed to reach Lee's army, a great portion would throw down their arms and enter our lines.

WASHINGTON, Feb. 1.—*World's* Special.—It is rumored in official circles that we are upon the eve of a war with France. Mr. Seward is said to have pursued a course towards France, concerning the Florida, Rappahannock and rams known to be building in France for the rebels, as to elicit a reply from the French foreign minister in accordance with which the United States must either abandon its pretensions or go to war to maintain them. Mr. Everts was, it is stated, instructed to demand of France the surrender of the belligerent rights accorded to rebels, and it is certain there is some serious difficulty with the French Cabinet.

[This may be taken for what it is worth.—Signed—REPORTER.]

FROM THE SOUTH.

FORTRESS MONROE, Jan. 21.—The flag of truce steamer *New York* arrived last evening. Four Union officers—one Colonel and three Captains—were sent down on their parole by the rebel government. About twenty refugees from Richmond arrived to-day via Yorktown. Richmond papers of the 29th are received. The *Enquirer* of that date contains the following:

MOBILE, Jan. 27.—On the 23d, Gen. Wirt Adams' cavalry entered Gelsertown, near Natchez, and captured 35 prisoners, 60 wagons and teams, a lot of cotton, and about 80 negroes.

MOBILE, Jan. 25.—Twelve transports have passed down the Mississippi within the past two days. Gen. Sherman and his staff accompanied them.

The *Enquirer* of the 27th has the following:

PASAQUOILA, Jan. 25th.—The enemy's gunboats, with six transports, entered the mouth of the river on the 7th inst., and proceeded up the river, taking possession of Madisonville and four mills which our forces neglected to burn. They threw out pickets to Covington road, within two miles of town; also on the Madisonville road on the east side of the river. They are engaged in raising hulls of several vessels sunk in the river by our authority. Our forces withdrew towards Franklinton.—Four gunboats were in sight yesterday, three off Round Island. Three others have proceeded towards Ship Island.

NEW YORK, Feb. 2d.—Richmond papers contain an account of the running ashore and burning, by her crew, of the blockade runner Vesta, with a valuable cargo of army supplies, including a splendid uniform for Gen. Lee from his admirers in London. This occurred near Wilmington on the 10th of January. The Vesta was a new double screw steamer on her first voyage.

FROM LEAVENWORTH.

ST. LOUIS, Feb. 2.—A Leavenworth dispatch to the *Democrat* says: The Legislature passed resolutions asking that the southern portion of western tier of counties in Missouri be attached to the department of Kansas.

Gen. Curtis has gone to Fort Scott.

A very large meeting of ladies and gentlemen was held last night at Mercantile Library Hall, to make arrangements for holding a great Mississippi Valley Sanitary Fair the coming spring. Gen. Rosecrans was elected President; Gov. Hall, Mayor Tilley, and Gen. Fisk, Vice Presidents; President Lincoln, Vice President Hamlin; the Governors of all loyal States, and General Grant, honorary members.—A large Executive Committee, composed of gentlemen and ladies, was also elected. Speeches were made by Gen. Rosecrans and others. A strong determination is manifested by all to go to work earnestly and enthusiastically to make this the greatest Fair ever held.

AFTERNOON DISPATCHES.

IMBODEN ACROSS THE POTOMAC!

Bill Passed to Pay Deceased and Wounded Soldiers.

FROM HARRISBURG.

HARRISBURG, Feb. 1.—Special to *Tribune*.—A report prevails to-night that Imboden had crossed the Potomac eight miles below Hancock and was aiming at Chambersburg and Cumberland Valley, and will reach Harrisburg, if possible. He has no artillery or infantry except two sections of a six-pound battery. There is no adequate force to pursue or interrupt him.

FROM WASHINGTON.

WASHINGTON, Feb. 2.—Greene C. Bronson and others *vs.* the La Crosse & Milwaukee Railroad—argument in this case is being continued in the Supreme Court to-day.

HOUSE.—On motion of Mr. Fenton, the Secretary of the Navy was requested to inform the House whether supplies for the navy during the past year were purchased upon contract? If not, what proportion and kinds were purchased in open market, &c., and inform the House what alterations in the law are necessary.

Mr. Stevens from Ways and Means committee, reported a bill of appropriations for the support of the army for the year ending June 1865.

The House passed the bill to facilitate the payment of bounties and arrears of pay due wounded and deceased soldiers.

The House resumed the consideration of the bill amendatory of the confiscation act.

FROM MISSOURI.

ST. LOUIS, Feb. 2.—Both Houses adjourned yesterday, to attend the funeral of Gov. Gamble in this city to-morrow.

Lieut. Gov. Hall's message to the Legislature announcing the death of Gov. Gamble concludes as follows:

"My chief and constant efforts shall be to co-operate with the Federal Government in its efforts to suppress the existing rebellion. In doing this I shall not be solicitous to find fault with the President, Congress or our Generals in the field. I shall rather defer my objections to whatever I may think blameworthy in acts to more propitious periods, and trust by a cordial support of the Government of the United States to contribute something to the restoration of peace."

LATER FROM EUROPE.

HALIFAX, Feb. 1.—The *Hibernia*, from Galway the 19th ult., has arrived here.—Her news is important. The steamship *Louisiana*, from Liverpool, bound to New York, put back to Queenstown on the 18th inst., disabled. Her decks were swept and seven of her passengers and ten of her crew were washed overboard.

Denmark has rejected the Austro-Prussian ultimatum. The Austrian and Prussian ambassadors are reported to have quitted Copenhagen.

On the 18th, the Emperor of Austria reviewed 200,000 troops, to march immediately for Schleswig.

Prussian military preparations are progressing vigorously. The French Chambers continued to debate the address to the Emperor Napoleon.

It is stated that the amendment in regard to Mexico, will be met by a ministerial statement. Since the 1st of Jan'y, all the expenses of the French troops have been borne by the Mexican Government.

Archduke Maximilian will visit Paris, as the guest of the Emperor, and will be received with appropriate honors.

Garibaldi has issued a proclamation announcing the formation of a Committee to promote Italian Union, and inviting all Italians to rally around it.

The *Post* says the Austrian and Prussian representatives will doubtless quit Copenhagen, and war may be formally declared, but it is still possible that active hostilities may not instantly follow.

Austria nor Prussia cannot possibly wish for a serious war with Denmark, and we suspect their present policy, however dangerous, is pursued from a sole desire, in consequence of their defeat in the Diet, to become, so far as regards other powers, masters of the present situation.

The allied powers of Austria and Prussia on one side, and Denmark on the other, would be the belligerent party, and the German Confederation, that is to say minor German powers, would no longer have a right to interfere in the pending dispute. Austria and Prussia would be the sole arbitrators of the conditions on which they would be willing to conclude peace.

A Denmark telegram to the *Morning Herald* says envoys of Prussia and Austria have presented an ultimatum, calling on the Danish Government to withdraw the November Constitution. The Danish Government has rejected the demand. The envoys left Copenhagan at 2 o'clock in a private steamer.

The London Daily *News* says it will probably be proposed early in the session to appoint a Government Commission to consider the question of a railroad in the metropolis.

VERY LATEST PER HIBERNIAN.

LONDON, Jan. 19.—The London *Times* city article says summary notification sent to Denmark by Austria and Prussia for the withdrawal of the obnoxious constitution on pain of immediate occupation of Schleswig, produced further depression in all the markets yesterday, which was aggravated by the increasing intensity of the decline of gold from the Bank of France, and the probability that its action on this side may induce an early return of the rate of discount to 8 per cent.

TUESDAY, FEBRUARY 9, 1864.

A Masonic Funeral.

The first Masonic funeral that ever took place in California, occurred in the year of 1849, and was performed over the body of a brother found drowned in the bay of San Francisco. An account of the ceremonies states that upon the body of the deceased was found a silver mark of a Mark Master, upon which was engraved the initials of his name. A little further investigation revealed to the beholders the most *outre* exhibition of Masonic emblems that were ever drawn by the ingenuity of man on the human skin. There is nothing in the history or traditions of Freemasonry equal to it. Beautifully dotted on his left arm, in red or blue ink, which time could not efface, appeared all the emblems of the Entered Apprentice. There were the Holy Bible, the Square and Compass, the twenty-four inch Guage, and the common Gavel. There were also the Mosaic pavement representing the ground-floor of King Solomon's Temple, the indented Tessel which surrounds it, and the Blazing Star in the centre. On his right arm, and artistically executed in the same indelible liquids, were the emblems appertaining to the Fellow Craft degree, viz., the Plumb, the Square and the Level. There were also five columns, representing the five Orders of Architecture—the Tuscan, Doric, Ionic, Corinthian and Composite.

In removing the garments from his body, the Trowel presented itself, with all the other working tools of operative Masonry, besides all the emblems peculiar to the degree of Master Mason. Conspicuously on his breast were the Great Light of Masonry. Over his heart was the pot of incense. On other parts of his person were the Bee Hive, the Book of Constitutions, guarded by the Tyler's Sword, the All-Seeing Eye; the Anchor and Ark, the Hour Glass, the Scythe, the forty-seventh problem of Euclid; the Sun, Moon, Stars and a Comet; the Three Steps, emblematical of Youth, Manhood and Age. Admirably executed was the weeping Virgin, reclining on a broken column, upon which lay the book of Constitutions. In her left hand she held the pot of Incense, the Masonic emblem of a pure heart, and in her uplifted right hand a sprig of acacia, the beautiful emblem of immortality of the soul. Immediately beneath her stood winged Time, with his scythe by his side, "which cuts the brittle thread of life," and the Hour-Glass at his feet, which is ever reminding us that "our lives are drawing to a close." The withered and attenuated fingers of the Destroyer were delicately placed amid the long and gracefully flowing ringlets of the disconsolate mourner. Thus were the striking emblems of mortality and immortality beautifully blended in one pictorial representation. It was a spectacle such as Masons never saw before, and in all probability, such as the fraternity may never witness again. The brother's name was never—known.

The Post-Office Department.

One of the most significant facts that has been brought to the attention of the public recently, is the statement made the other day upon the floor of Congress by Mr. Kassion of Iowa, that the Post-office Department is now self-sustaining for the first time in fifteen years. There is food here for a column of comment, and were it not apparent to every intelligent person what has caused this favorable change, we would venture upon the task. It has always been known that the great drag upon the department was from that portion of our country which, from the nature of its population, furnished comparatively but a small portion of the revenue, while the mail service required was about equal for the same extent of country. The Slave States generally, and particularly the more southern of them, have been a heavy weight upon the department, entirely absorbing the surplus revenue derived from the free states, and requiring a heavy outlay besides. This has had the effect to keep up the rates of postage much higher than they need to have been had not the service been so disproportionate to the revenue in the slave States. When the States shall become free throughout the Union, we shall not only look to have this department self-sustaining, but shall expect to have it be so, with a reduction of the rates we now have to pay.

FROM MADISON.

Editorial Correspondence.

MADISON, February 1, 1864.

There was hardly a quorum present this morning, indeed the Assembly was so thin that it was not deemed advisable to call the roll for fear of a lack of the constitutional number. But those who were present believed themselves amply able to do business, so they proceeded with the duties before them.

Considerable time was spent with Mr. McGarry, who is anxious to rid himself of the disgrace that attaches to his vote against the resolution of thanks to our army and navy. He was very bitter on Mr. Rublee of the *Journal* for having said this of him:

More than a dozen members of the House, including every one present at the time who have spoken to us on the subject, assure us that they heard him vote *No*. The vote was clear and distinct. There is no mistake about it. His voice is of a description that precludes doubt. It is like the hand of the Douglas;

"No other hand such blow could deal;"

and no other voice in the House bears any resemblance to that of McGarry. It has an affluence of Milesian brogue—a Tipperary quaver on the rising inflection—and a "dying fall" in the subsiding whinny that would distinguish it among ten thousand.

This may not seem exactly complimentary, but it must be said that it is richly deserved. Any man who refuses to thank our brave boys in the field for upholding our flag, and the flag that shelters Mr. McGarry, ought to be gibbeted on every hill-top throughout the land.

Mr. Barry's resolutions relating to Prison reform were adopted, as follows:

WHEREAS, The subject of reform in the management of State Prisons is receiving the earnest attention not only of social philosophers, but of all enlightened communities, and it is being seen and felt by the best minds and hearts of the age that there is needed a thorough revision of existing systems of management and discipline; and,

WHEREAS, The punishments inflicted for crime do often tend to increase it, and to harden offenders against the peace and safety of society; therefore,

Resolved by the Assembly, the Senate concurring, That the Standing Committee on State Prison, of the two Houses, be instructed to consider and report upon the following questions, viz:

1. Would it not be eminently safe and of good effect to permit convicts in our State Prison to shorten their term of punishment by good behavior.

2. Is it not of the first importance, in order that we may secure the object for which our prisons are established, that our prison system should be so reformed as to enable convicts, having families, to aid, by their prison labor, in the support of the same, thus holding out one of the most powerful incentives to reformation?

Bills were passed to provide for a special tax in Watertown, and to legalize a meeting at which the same was voted.—To incorporate the Green Bay Transportation Company. To incorporate the Normal Musical Society of the Northwest.

Some time was spent in committee of the whole, Mr. Hubbell in the chair.

Mr. HUBBELL offered a resolution authorizing the Committee on Charitable Institutions to visit the Orphan Asylum and St. Mary's Hospital, Milwaukee.

IMPORTANT DISCOVERY.—The Washington correspondent of the New York *Journal of Commerce* writes that a curious and interesting discovery has just been made in the Department of State, bearing upon the boundary line between the State of Minnesota and the British Provinces.—From time immemorial, all the maps that have come before the public have represented the dividing line as barely touching the utmost southern extremity of the Lake of the Woods, and then passing directly to the westward. A recent investigation of the maps and treaty touching this matter have brought to light the fact that the boundary line, after reaching the lake, passes through the half of its centre, thence westward, up an extensive bay or arm, then directly south again until it reaches the main meridian, and then continues to the west. The upshot of the story is, that Minnesota has a big lump of valuable land which she did not know belonged to her, and she has full command of the Lake of the Woods.

ILLNESS OF MR. STEPHENS.—Mr. Hidell, Secretary to the Vice President, received a dispatch yesterday from Augusta, announcing the sudden and serious illness of Mr. Stephens. He was attacked on Sunday morning. This attack, with the well-known state of his health during the winter, creates serious apprehensions in regard to him.—*Richmond Enquirer, Jan. 19.*

Statement of Jeff. Davis' Body Servant.

Jim Dennison, *alias* Pemberton, a negro who claims to have been the body servant of Jeff. Davis, has arrived at Washington. The following are stated as parts of his narrative, which is in the usual style of the "intelligent contraband:"

Mrs. Davis called the attention of her husband to the leaky condition of the cupola roof of the house one day, when Mr. Davis replied: "I reckon we will be out of this before another rain-storm. Don't fuss yourself and fret me about such trifles." The talk is not about going to Columbia, South Carolina, but to some city in Georgia. Mr. A. H. Stephens is said not to have visited Davis' house for over a year, and Davis is said to be indifferent about him. Jim accompanied Davis on his recent tour around the confederacy, and describes the following scene as having occurred on the summit of Lookout mountain: Looking down one bright day from the lofty eminence, Davis saw the Yankees almost beneath his feet, across the valley, working like beavers on their fortifications. "I have them, now," said he, "in just the trap I set for them." To which Lieutenant-General Pemberton, who was sitting on horseback beside him, replied: "Mr. Davis, you are commander-in-chief, and you are here. You think the enemy are in a trap, and can be captured by a vigorous assault. I have been blamed for not having ordered a general attack on the enemy when they were drawing around me their lines of circumvallation at Vicksburg. Do you now order an attack upon those troops down there below us, and I will bet you my life that not one G—d d—n man of the attacking column will ever come back across that valley, except as a prisoner."

While on his return through North Carolina he was requested by some prominent residents of that State, to have an interview with Governor Vance, which he angrily declined.

Jim represents that Davis's health is breaking down under his attacks of neuralgia, and now he can no longer use his sound eye by candlelight. His temper has been much aggravated by his misfortunes. About four weeks ago a pistol accidentally exploded in his room, and the whole family rushed up stairs to see if he had committed suicide, as they were under the impression that that was his intention.

Jim says that Mrs. Davis, when talking about the confederacy, gives up the cause as hopeless, and loudly laments the lost pleasures of Washington. There is no forage except in the Mississippi Department, and Davis's horses are restricted to two quarts of oats per day. Mr. Davis receives no company, and has no wine with which to entertain them if they came. His liquors consist of a few kegs of brandy which have run the blockade of Wilmington.

The utmost distress prevails in Richmond for food, there not being more than two or three beeves killed in the city per day for private consumption. Fresh beef was about $4 a pound when he left. For a string of three perch, weighing less than a pound each, he paid $13. Oysters were $25 a quart, as they could only be obtained in the night on account of the Yankee occupation of James river with gunboats.

Beauregard is known to have black prisoners at Charleston, who are reported to be subsisted on the minimum ration that will support life.

GEN. MEAGHER ON COPPERHEADS.—At a reception of the Irish Brigade in New York last week, Gen. Meagher, in rising to propose a toast in favor of President Lincoln, expressed himself in the following pointed and eloquent terms:

"Beware of what has grown to be the most significant designation of Northern enemies of this country; beware of the reptiles who are known as copperheads.—[Applause and hisses.] For the enemies of this country in the North, who have no excuse, who bid their friends go forth to do battle, and then cut down the bridges behind them so that they may fall sacrifices to the enemy, as they did when Gen. Lee invaded Pennsylvania last summer, raising a revolt when you were battling for the stars and stripes upon the Susquehannah; as for these men, we have nothing but detestation; and for the Irish portion of it, I deprecate, I loathe, I repudiate, I execrate them. [Applause.]

FRUIT KILLED IN SOUTHERN ILLINOIS.—One of the great sources of the wealth of Southern Illinois has been her productive orchards, thousands of which grace the hill-sides and valleys of Union, Jackson, and Williamson counties, bringing in a large and certain revenue to the enterprising horticulturists, who have made this branch of industry the leading feature of our portion of the State. For peaches, Egypt has been unrivaled, and, of late years, she has supplied the North and the West with this luscious fruit—for thirty years the orchards upon the uplands have not been affected by the frost, and when crops in other sections have failed from this cause, the "ridges" have produced bountifully; but this season tells another tale—this crowning glory of Egypt has departed. The late cold weather has destroyed not only the crop of peaches and pears but also has killed the last year's growth of wood, and in many instances the whole tree. We have before us twigs from peach, pear and apple trees cut within twenty-four hours—the wood of the peach and pear twigs is black, showing the sap vessels to be destroyed, and the wood dead beyond recovery. This will be a sad blow to our portion of the State—hundreds of thousands of dollars lost, and we fear it will not soon recover from the effects. The apple is uninjured, and promises an abundant crop.—*Cairo News, Jan. 26.*

OUT DOOR ETIQUETTE.—A gentleman meeting a lady should always take the right of the walk.

A gentleman meeting another should always pass to the right.

A lady, as a general rule, should not take a gentleman's arm in the street in the day time.

However, it is not improper when the walk is thronged with passengers.

A gentleman meeting or passing a gentleman and lady should pass on the gentleman's side.

A gentleman should never fail to salute a lady of his acquaintance when within a proper distance; unless she wear a veil, in which case it would be highly uncivil to recognize her.

VALUABLE DISCOVERY—SORGHUM SUGAR.—An experiment has been made in the Department of Agriculture, before a large number of persons, clearly demonstrating the practicability of every man in the north making his own sugar. A gentleman from Nebraska, Mr. J. E. Riggs, who is about taking out a patent for his process, was the operator. From sorghum syrup sent to the department for exhibition, in the course of a few moments he produced a clean and pure sugar, equal in all respects to the best coffee sugar, the residue of the syrup proving to be an excellent flavored article, strongly resembling amber or golden syrup of the shops, and entirely free from sorghum taste.

—There were only seven votes in the California Legislature against the resolution favoring the re-election of President Lincoln. The Democratic force is thirteen.

Slavery Dead in Tennessee.—A Remarkable Article and a Sign of the Times.

[From the Memphis Bulletin, Jan. 12.]

I. Slavery as "an institution," exists legally in Tennessee, but practically it is dead. The President's proclamation did not apply to our State, and so far as that is concerned, the status of "the institution" is not affected. But other causes not less potent, have been in operation. The utter absence of all civil courts, by which the rights of the master could be enforced and the arming of the negro, have been the efficient means by which "the institution" has been brought to its death in Tennessee. It is just as dead in Tennessee as if the rebels had voluntarily emancipated every negro before leaving their homes. Slavery is a creature of local law, and when once the protection aid and assistance which the law affords is withdrawn, it no longer practically exists; for the slave owner is shut up to the enforcement of his own rights, which, from the nature of the "institution" it is impossible for him to maintain. It was necessary that the "institution should be recognized in the Constitution in several places—it was necessary that Congress should pass a fugitive slave law—it was necessary that every Southern State should engraft the "institution" into their constitutions, and it was necessary that every city and county should make police or municipal regulations for the protection and enforcement of the master's right of property in man before the "institution" could have a legal and practical existence in the Southern States.

When Jeff. Davis and the leaders of the rebellion threw aside the protection which the Federal Constitution and laws afforded, and in order to put the "institution" on a mere permanent footing appealed to the sword, he and they struck the shackles off of every slave which should be found in the territory conquered by the National arms. They were warned of the folly of their course at the time. In the old Bulletin the writer of this article devoted considerable time to show that the Federal Constitution was the only national law or compact known to civilization, which recognized property in man; and that Southern men, in attempting to throw that instrument aside, by an appeal to the sword, would lose the very object, the possession of which they professed most of all to desire. But fanaticism and madness ruled the hour the appeal was defiantly made to force, and the result has been the death of "the institution" in Tennessee.

II. We are not prepared to say that Tennessee can never get back into the Union as a slave State. We live in a fast age—in an age when the Almighty Ruler of Nations is making His power and His providence felt in a peculiar and most significant manner. This is nowhere more strikingly exhibited than in the "institution" of slavery itself. Its friends went to war against the best and freest Government in the world—against a Government in which the people themselves are the sovereigns—for the purpose of sustaining and perpetuating the "institution," and after two years of toil and struggle, behold the result! Hundreds of thousands are already free, by the conquest of the territory in which the "institution" existed; and the longer the struggle is protracted, the more certain is the destruction to "the institution" accomplished. If the Federal arms had been successful at Bull Run—if Johnston and Beauregard had been defeated at that early period of the war—the Union might have been restored, and "the institution" partially if not entirely saved. But new lights have burst upon the mind of the nation since, and it is now apparent to the most casual observer, that the more protracted the struggle for the "institution," the more certain its destruction.

Whether the Federal Congress would permit Tennessee to come back into the Union as a slave State, "when the war is over," we can not pretend to say, but all the signs of the times go to confirm the belief that it would not. But as loyal citizens of Tennessee, we do do not propose to wait till the war is over, before the application for readmission is made. It should be made at once. We intend to use whatever influence we can command to have the issue made with the least possible delay; and, desiring success in the application, above all things, we are equally determined to make it in such a manner only as we believe will insure success. We are decidedly of the opinion that none of the States in the insurrectionary districts will be readmitted into the Union, during the progress of the war, "as slave States." What might be done afterward with slavery in the Constitution, we do not pretend to know or interest ourselves to inquire. We regard it as the true policy of the people of Tennessee to close in with the overtures of the President—to take the oath which he has proposed—to form a new State Constitution, without the "institution" and, thus applying, we feel an abiding confidence that Tennessee may be again in the Union by the ides of April.

III. By birth, education and continuous residence, we have been identified with the institution of slavery. Though comparatively young, we have lived long enough to see that it confers no benefit, either upon the State or the great mass of the people among whom it exists. We believe there is no portion of the soil of Tennessee in which the white man can not labor quite as healthily, and far more successfully, than the slave. There is no reason, therefore, why our soil may not become the abode of a hardy, industrious and frugal class of white laborers—emigrants, it may be, from Europe—under whose superior management our desert places may be made to teem with the rich products which make great, free and wealthy communities. The "institution" having been practically destroyed by its pretended friends, and "emancipation having been thus inaugurated, we believe it to be the true policy of all Tennesseeans, not only "to favor" it, but to use all legitimate means to eradicate slavery from our State Constitution at the earliest possible moment.

COLORED NURSES.—General orders, No. 390, dated War Department, Adjutant General's Office, Washington, December 8, 1863, is revoked, and the following substituted therefor, by order of the Secretary of War:

The employment of persons of African descent, male or female, as cooks or nurses, will be permitted in all United States general hospitals. When so employed they will receive ten dollars per month and one ration. They will be paid by the nearest medical disbursing officer, on rolls similar to those used in the payment of men of the hospital corps.

JOKE ON QUARTERMASTERS.—Tuesday, at one of the stands at the Fair, an officer made some purchases of one of the fairest of the fair, and handed a bill to Miss P. to make the change. There being some little difficulty in making the change, one of the ladies jokingly remarked: "Cheat him; it's all for the soldiers." "Cheat him!" indignantly remarked Miss P. "*I'm no Quartermaster!*" The gallant Lieutenant Colonel being of that persuasion, of which Miss P. was entirely innocent, took his change and left, feeling that his branch of the service was not like the wife of a certain Roman, "above suspicion."—*Cincinnati Gazette.*

It protects the machine when not in use, and when about to be operated may be opened as a spacious and substantial table to sustain the work. While some of the Cases made out of the choicest woods, are finished in the simplest and chastest manner possible, others are adorned and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine in operation, so as to judge of its great capacity and beauty.

It is fast becoming as popular for family sewing as our Manufacturing machines are for manufacturing purposes.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality.

BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The felloes are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill............$75 11 Tooth Drill............$85
10 Tooth Drill........... 80 12 Tooth Drill............ 90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice.

Price of 17th tooth Drill and Seeder, $120.

THE BEST IS ALWAYS THE CHEAPEST!

WARRANTED!

WITH

COG WHEELS!

SELF-ADJUSTING & ADJUSTABLE.

It is the best and only reliable wringer before the people. It is the most durable machine made, and combine more strength of frame, capacity for pressure and power of action than any of the cheap, NO COG wringers in the market.

Without cog wheels the whole strain of forcing the cloth through the machine is put upon the lower roll, and the cloth is made to act in the place of cog wheels, to drive the upper roll, causing three times as much strain upon the lower roll as when cog-wheels with our Patent Regulator are used, besides the extra strain upon the cloth. Experience shows that Clothes Wringers without cog-wheels cannot be depended upon.

We have seven sizes, from $5.00 to $30. The ordinary family sizes are No. 1, $10, and No. 2, $7. They have COG WHEELS and are warranted in every particular.

It was pronounced superior to all others at the World's Fair at London, 1862. It took the FIRST PREMIUM at the great Fair of the American Institute, New York City, 1863, where the judges were practical mechanics, and appreciated COG-WHEELS.

It took the FIRST PREMIUM at the

FLORENCE SEWING MACHINE

Over the Post Office!

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it; alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY!

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.

PATENT MEDICINES.

$100 REWARD!

FOR A MEDICINE THAT WILL CURE

COUGHS, INFLUENZA,
TICKLING in the THROAT,
WHOOPING COUGH,
Or Relieve CONSUMPTIVE COUGH

AS QUICK AS

COE'S

COUGH BALSAM

Over Five Thousand Bottles have been sold in its native town, and not a single instance of its failure is known. We have, in our possession, any quantity of certificates, some of them from eminent Physicians, who have used it in their practice, and given it the pre-eminence over any other compound.

It does not Dry up a Cough,

but loosens it, so as to enable the patient to expectorate freely. Two or three doses will invariably cure Tickling in the Throat. A half bottle has often COMPLETELY CURED the most

STUBBORN COUGH,

and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.

IN CASES OF CROUP,

we will guarantee a cure if taken in season. No family should be without it. It is within the reach of all, the price being

Only Twenty-Five Cents,

and if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.

DO NOT WASTE AWAY WITH COUGHING,

when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

ESPECIALLY TO THE SICK.

DR. V. CLARENCE PRICE,

ANALYTICAL PHYSICIAN

LATE OF BUFFALO, N. Y.

Notice for January, 1864.

It will be remembered that Dr. Price has visited Janesville for three years, restored to health many suffering from affections of the Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsia, Fits, Asthma, Scrofula, Dropsies, Female Complaints, and other diseases called chronic, most having dispaired of a recovery. To the cure of chronic diseases in their various forms and stages, Dr. Price devotes his whole attention. He is not reviving an old worn out system advocated years ago by speculative adventurers, but a method of treatment of twenty years standing, and still pursued in the east with unparalleled success. A system founded on truth, no trifling sacrificing of life to experiments. Knowledge we contend for, not speculation, experiment and quackery! We use no minerals or destructive agent, nor exhaust the energies nor injure the constitution, nor make sick to make well, tear down to build up. We invite honorable investigation, feeling that our cause is just. Those sick and discouraged call upon us—advice gratuitous. Our Philosophy of practice is founded on the Laws of Nature. Our theory of disease the theory of Experience and Evidence—our Materia Medica the boundless forest!

DR. PRICE will be for consultation upon diseases generally at Janesville,

Hyatt House, Saturday and Sunday,

the 9th and 10th of January, 1864; Whitewater, Montour House, the 8th of January. 5wtf

A Masonic Funeral.

The first Masonic funeral that ever took place in California, occurred in the year of 1849, and was performed over the body of a brother found drowned in the bay of San Francisco. An account of the ceremonies states that upon the body of the deceased was found a silver mark of a Mark Master, upon which was engraved the initials of his name. A little further investigation revealed to the beholders the most *outre* exhibition of Masonic emblems that were ever drawn by the ingenuity of man on the human skin. There is nothing in the history or traditions of Freemasonry equal to it. Beautifully dotted on his left arm, in red or blue ink, which time could not efface, appeared all the emblems of the Entered Apprentice. There were the Holy Bible, the Square and Compuss, the twenty-four inch Guage, and the common Gavel. There were also the Mosaic pavement representing the groundfloor of King Solomon's Temple, the indented Tessel which surrounds it, and the Blazing Star in the centre. On his right arm, and artistically executed in the same indelible liquids, were the emblems appertaining to the Fellow Craft degree, viz., the Plumb, the Square and the Level. There were also five columns, representing the five Orders of Architecture—the Tuscan, Doric, Ionic, Corinthian and Composite.

In removing the garments from his body, the Trowel presented itself, with all the other working tools of operative Masonry, besides all the emblems peculiar to the degree of Master Mason. Conspicuously on his breast were the Great Light of Masonry. Over his heart was the pot of incense. On other parts of his person were the Bee Hive, the Book of Constitutions, guarded by the Tyler's Sword, the All-Seeing Eye; the Anchor and Ark, the Hour Glass, the Scythe, the forty-seventh problem of Euclid; the Sun, Moon, Stars and a Comet; the Three Steps, emblematical of Youth, Manhood and Age. Admirably executed was the weeping Virgin, reclining on a broken column, upon which lay the book of Constitutions. In her left hand she held the pot of Incense; the Masonic emblem of a pure heart, and in her uplifted right hand a sprig of acacia, the beautiful emblem of immortality of the soul. Immediately beneath her stood winged Time, with his scythe by his side, "which cuts the brittle thread of life," and the Hour-Glass at his feet, which is ever reminding us that "our lives are drawing to a close." The withered and attenuated fingers of the Destroyer were delicately placed amid the long and gracefully flowing ringlets of the disconsolate mourner. Thus were the striking emblems of mortality and immortality beautifully blended in one pictorial representation. It was a spectacle such as Masons never saw before, and in all probability, such as the fraternity may never witness again. The brother's name was never—known.

The Post-Office Department.

One of the most significant facts that has been brought to the attention of the public recently, is the statement made the other day upon the floor of Congress by Mr. Kassion of Iowa, that the Post-office Department is now self-sustaining for the first time in fifteen years. There is food here for a column of comment, and were it not apparent to every intelligent person what has caused this favorable change, we would venture upon the task. It has always been known that the great drag upon the department was from that portion of our country which, from the nature of its population, furnished comparatively but a small portion of the revenue, while the mail service required was about equal for the same extent of country. The Slave States generally, and particularly the more southern of them have been a heavy weight upon the department, entirely absorbing the surplus revenue derived from the free states, and requiring a heavy outlay besides. This has had the effect to keep up the rates of postage much higher than they need to have been had not the service been so disproportionate to the revenue in the slave States. When the States shall become free throughout the Union, we shall not only look to have this department self-sustaining, but shall expect to have it be so, with a reduction of the rates we now have to pay.

FROM MADISON.

Editorial Correspondence.

MADISON, February 1, 1864.

There was hardly a quorum present this morning, indeed the Assembly was so thin that it was not deemed advisable to call the roll for fear of a lack of the constitutional number. But those who were present believed themselves amply able to do business, so they proceeded with the duties before them.

Considerable time was spent with Mr. McGarry, who is anxious to rid himself of the disgrace that attaches to his vote against the resolution of thanks to our army and navy. He was very bitter on Mr. Rublee of the *Journal* for having said this of him:

More than a dozen members of the House, including every one present at the time who have spoken to us on the subject, assure us that they heard him vote No. The vote was clear and distinct. There is no mistake about it. His voice is of a description that precludes doubt. It is like the hand of the Douglas;

"No other hand such blow could deal;"

and no other voice in the House bears any resemblance to that of McGarry. It has an affluence of Milesian brogue—a Tipperary quaver on the rising inflection—and a "dying fall" in the subsiding whinny that would distinguish it among ten thousand.

This may not seem exactly complimentary, but it must be said that it is richly deserved. Any man who refuses to thank our brave boys in the field for upholding our flag, and the flag that shelters Mr. McGarry, ought to be gibbeted on every hill-top throughout the land.

Mr. Barry's resolutions relating to Prison reform were adopted, as follows:

WHEREAS, The subject of reform in the management of State Prisons is receiving the earnest attention not only of social philosophers, but of all enlightened communities, and it is being seen and felt by the best minds and hearts of the age that there is needed a thorough revision of existing systems of management and discipline; and,

WHEREAS, The punishments inflicted for crime do often tend to increase it, and to harden offenders against the peace and safety of society; therefore,

Resolved by the Assembly, the Senate concurring, That the Standing Committee on State Prison, of the two Houses, be instructed to consider and report upon the following questions, viz:

1. Would it not be eminently safe and of good effect to permit convicts in our State Prison to shorten their term of punishment by good behavior.

2. Is it not of the first importance, in order that we may secure the object for which our prisons are established, that our prison system should be so reformed as to enable convicts, having families, to aid, by their prison labor, in the support of the same, thus holding out one of the most powerful incentives to reformation?

Bills were passed to provide for a special tax in Watertown, and to legalize a meeting at which the same was voted.—To incorporate the Green Bay Transportation Company. To incorporate the Normal Musical Society of the Northwest.

Some time was spent in committee of the whole, Mr. Hubbell in the chair.

Mr. HUBBELL offered a resolution authorizing the Committee on Charitable Institutions to visit the Orphan Asylum and St. Mary's Hospital, Milwaukee.

IMPORTANT DISCOVERY.—The Washington correspondent of the New York *Journal of Commerce* writes that a curious and interesting discovery has just been made in the Department of State, bearing upon the boundary line between the State of Minnesota and the British Provinces.—From time immemorial, all the maps that have come before the public have represented the dividing line as barely touching the utmost southern extremity of the Lake of the Woods, and then passing directly to the westward. A recent investigation of the maps and treaty touching this matter have brought to light the fact that the boundary line, after reaching the lake, passes through one-half of its centre, thence westward up an extensive bay or arm, then directly south again until it reaches the main meridian, and then continues to the west. The upshot of the story is, that Minnesota has a big lump of valuable land which she did not know belonged to her, and she has full command of the Lake of the Woods.

ILLNESS OF MR. STEPHENS.—Mr. Hidell, Secretary to the Vice President, received a dispatch yesterday from Augusta, announcing the sudden and serious illness of Mr. Stephens. He was attacked on Sunday morning. This attack, with the well-known state of his health during the winter, creates serious apprehensions in regard to him.—*Richmond Enquirer, Jan. 19.*

Statement of Jeff. Davis' Body Servant.

Jim Dennison, *alias* Pemberton, a negro who claims to have been the body servant of Jeff. Davis, has arrived at Washington. The following are stated as parts of his narrative, which is in the usual style of the "intelligent contraband:"

Mrs. Davis called the attention of her husband to the leaky condition of the cupola roof of the house one day, when Mr. Davis replied: "I reckon we will be out of this before another rain-storm. Don't fuss yourself and fret me about such trifles." The talk is not about going to Columbia, South Carolina, but to some city in Georgia. Mr. A. H. Stephens is said not to have visited Davis' house for over a year, and Davis is said to be indifferent about him. Jim accompanied Davis on his recent tour around the confederacy, and describes the following scene as having occurred on the summit of Lookout mountain: Looking down one bright day from the lofty eminence, Davis saw the Yankees almost beneath his feet, across the valley, working like beavers on their fortifications. "I have them, now," said he, "in just the trap I set for them." To which Lieutenant-General Pemberton, who was sitting on horseback beside him, replied: "Mr. Davis, you are commander-in-chief, and you are here. You think the enemy are in a trap, and can be captured by a vigorous assault. I have been blamed for not having ordered a general attack on the enemy when they were drawing around me their lines of circumvallation at Vicksburg. Do you now order an attack upon those troops down there below us, and I will bet you my life that not one G—d d—n man of the attacking column will ever come back across that valley, except as a prisoner."

While on his return through North Carolina he was requested by some prominent residents of that State, to have an interview with Governor Vance, which he angrily declined.

Jim represents that Davis's health is breaking down under his attacks of neuralgia, and now he can no longer use his sound eye by candlelight. His temper has been much aggravated by his misfortunes. About four weeks ago a pistol accidently exploded in his room, and the whole family rushed up stairs to see if he had committed suicide, as they were under the impression that that was his intention.

Jim says that Mrs. Davis, when talking about the confederacy, gives up the cause as hopeless, and loudly laments the lost pleasures of Washington. There is no forage except in the Mississippi Department, and Davis's horses are restricted to two quarts of oats per day. Mr. Davis receives no company, and has no wine with which to entertain them if they came. His liquors consist of a few kegs of brandy which have run the blockade of Wilmington.

The utmost distress prevails in Richmond for food, there not being more than two or three beeves killed in the city per day for private consumption. Fresh beef was about $4 a pound when he left. For a string of three perch, weighing less than a pound each, he paid $13. Oysters were $25 a quart, as they could only be obtained in the night on account of the Yankee occupation of James river with gunboats.

Beauregard is known to have black prisoners at Charleston, who are reported to be subsisted on the minimum ration that will support life.

GEN. MEAGHER ON COPPERHEADS.—At a reception of the Irish Brigade in New York last week, Gen. Meagher, in rising to propose a toast in favor of President Lincoln, expressed himself in the following pointed and eloquent terms:

"Beware of what has grown to be the most significant designation of Northern enemies of this country; beware of the reptiles who are known as copperheads.—[Applause and hisses.] For the enemies of this country in the North, who have no excuse, who bid their friends go forth to do battle, and then cut down the bridges behind them so that they may fall sacrifices to the enemy, as they did when Gen. Lee invaded Pennsylvania last summer, raising a revolt when you were battling for the stars and stripes upon the Susquehannah; as for these men, we have nothing but detestation; and for the Irish portion of it, I deprecate, I loathe, I repudiate, I execrate them. [Applause.]

FRUIT KILLED IN SOUTHERN ILLINOIS.—One of the great sources of the wealth of Southern Illinois has been her productive orchards, thousands of which grace the hill-sides and valleys of Union, Jackson, and Williamson counties, bringing in a large and certain revenue to the enterprising horticulturists, who have made this branch of industry the leading feature of our portion of the State. For peaches, Egypt has been unrivaled, and, of late years, she has supplied the North and the West with this luscious fruit—for thirty years the orchards upon the uplands have not been affected by the frost, and when crops in other sections have failed from this cause, the "ridges" have produced bountifully; but this season tells another tale—this crowning glory of Egypt has departed. The late cold weather has destroyed not only the crop of peaches and pears but also has killed the last year's growth of wood, and in many instances the whole tree. We have before us twigs from peach, pear and apple trees cut within twenty-four hours—the wood of the peach and pear twigs is black, showing the sap vessels to be destroyed, and the wood dead beyond recovery. This will be a sad blow to our portion of the State—hundreds of thousands of dollars lost, and we fear it will not soon recover from the effects. The apple is uninjured, and promises an abundant crop.—*Cairo News, Jan. 26.*

OUT DOOR ETIQUETTE.—A gentleman meeting a lady should always take the right of the walk.

A gentleman meeting another should always pass to the right.

A lady, as a general rule, should not take a gentleman's arm in the street in the day time.

However, it is not improper when the walk is thronged with passengers.

A gentleman meeting or passing a gentleman and lady should pass on the gentleman's side.

A gentleman should never fail to salute a lady of his acquaintance when within a proper distance; unless she wear a veil, in which case it would be highly uncivil to recognize her.

VALUABLE DISCOVERY—SORGHUM SUGAR.—An experiment has been made in the Department of Agriculture, before a large number of persons, clearly demonstrating the practicability of every man in the north making his own sugar. A gentleman from Nebraska, Mr. J. E. Riggs, who is about taking out a patent for his process, was the operator. From sorghum syrup sent to the department for exhibition, in the course of a few moments he produced a clean and pure sugar, equal in all respects to the best coffee sugar, the residue of the syrup proving to be an excellent flavored article, strongly resembling amber or golden syrup of the shops, and entirely free from sorghum taste.

—There were only seven votes in the California Legislature against the resolution favoring the re-election of President Lincoln. The Democratic force is thirteen.

Slavery Dead in Tennessee.—A Remarkable Article and a Sign of the Times.

[From the Memphis Bulletin, Jan. 18.]

I. Slavery as "an institution," exists legally in Tennessee, but practically it is dead. The President's proclamation did not apply to our State, and so far as that is concerned, the status of "the institution" is not affected. But other causes not less potent, have been in operation. The utter absence of all civil courts, by which the rights of the master could be enforced and the arming of the negro, have been the efficient means by which "the institution" has been brought to its death in Tennessee. It is just as dead in Tennessee as if the rebels had voluntarily emancipated every negro before leaving their homes. Slavery is a creature of local law, and when once the protection aid and assistance which the law affords is withdrawn, it no longer practically exists; for the slave owner is shut up to the enforcement of his own rights, which, from the nature of the "institution" it is impossible for him to maintain. It was necessary that the "institution should be recognized in the Constitution in several places—it was necessary that Congress should pass a fugitive slave law—it was necessary that every Southern State should engraft the "institution" into their constitutions, and it was necessary that every city and county should make police or municipal regulations for the protection and enforcement of the master's right of property in man before the "institution" could have a legal and practical existence in the Southern States.

When Jeff. Davis and the leaders of the rebellion threw aside the protection which the Federal Constitution and laws afforded, and in order to put the "institution" on a more permanent footing appealed to the sword, he and they struck the shackles off of every slave which should be found in the territory conquered by the National arms. They were warned of the folly of their course at the time. In the old Bulletin the writer of this article devoted considerable time to show that the Federal Constitution was the only national law or compact known to civilization, which recognized property in man; and that Southern men, in attempting to throw that instrument aside, by an appeal to the sword, would lose the very object, the possession of which they professed most of all to desire. But fanaticism and madness ruled the hour the appeal was defiantly made to force, and the result has been the death of "the institution" in Tennessee.

II. We are not prepared to say that Tennessee can never get back into the Union as a slave State. We live in a fast age—in an age when the Almighty Ruler of Nations is making His power and His providence felt in a peculiar and most significant manner. This is nowhere more strikingly exhibited than in the "institution" of slavery itself. Its friends went to war against the best and freest Government in the world—against a Government in which the people themselves are the sovereigns—for the purpose of sustaining and perpetuating the "institution," and after two years of toil and struggle, behold the result! Hundreds of thousands are already free, by the conquest of the territory in which the "institution" existed; and the longer the struggle is protracted, the more certain is the destruction to "the institution" accomplished. If the Federal arms had been successful at Bull Run—if Johnston and Beauregard had been defeated at that early period of the war—the Union might have been restored, and "the institution" partially if not entirely saved. But new lights have burst upon the mind of the nation since, and it is now apparent to the most casual observer, that the more protracted the struggle for the "institution," the more certain its destruction.

Whether the Federal Congress would permit Tennessee to come back into the Union as a slave State, "when the war is over," we can not pretend to say, but all the signs of the times go to confirm the belief that it would not. But as loyal citizens of Tennessee, we do not propose to wait till the war is over, before the application for readmission is made. It should be made at once. We intend to use whatever influence we can command to have the issue made with the least possible delay; and, desiring success in the application, above all things, we are equally determined to make it in such a manner only as we believe will insure success. We are decidedly of the opinion that none of the States in the insurrectionary districts will be readmitted into the Union, during the progress of the war, "as slave States." What might be done afterward with slavery in the Constitution, we do not pretend to know or interest ourselves to inquire. We regard it as the true policy of the people of Tennessee to close in with the overtures of the President—to take the oath which he has proposed—to form a new State Constitution, without the "institution" and, thus applying, we feel an abiding confidence that Tennessee may be again in the Union by the ides of April.

III. By birth, education and continuous residence, we have been identified with the institution of slavery. Though comparatively young, we have lived long enough to see that it confers no benefit, either upon the State or the great mass of the people among whom it exists. We believe there is no portion of the soil of Tennessee in which the white man can not labor quite as healthily, and far more successfully, than the slave. There is no reason, therefore, why our soil may not become the abode of a hardy, industrious and frugal class of white laborers—emigrants, it may be, from Europe—under whose superior management our desert places may be made to teem with the rich products which make great, free and wealthy communities. The "institution" having been practically destroyed by its pretended friends, and "emancipation having been thus inaugurated, we believe it to be the true policy of all Tennesseeans, not only "to favor" it, but to use all legitimate means to eradicate slavery from our State Constitution at the earliest possible moment.

COLORED NURSES.—General orders, No. 390, dated War Department, Adjutant General's Office, Washington, December 8, 1863, is revoked, and the following substituted therefor, by order of the Secretary of War:

The employment of persons of African descent, male or female, as cooks or nurses, will be permitted in all United States general hospitals. When so employed they will receive ten dollars per month and one ration. They will be paid by the nearest medical disbursing officer, on rolls similar to those used in the payment of men of the hospital corps.

JOKE ON QUARTERMASTERS.—Tuesday, at one of the stands at the Fair, an officer made some purchases of one of the fairest of the fair, and handed a bill to Miss P. to make the change. There being some little difficulty in making the change, one of the ladies jokingly remarked: "Cheat him; it's all for the soldiers." "Cheat him!" indignantly remarked Miss P., "*I'm no Quartermaster!*" The gallant Lieutenant Colonel being of that persuasion, of which Miss P. was entirely innocent, took his change and left, feeling that his branch of the service was not like the wife of a certain Roman, "above suspicion."—*Cincinnati Gazette.*

A CARD.

Catarrh, Throat Diseases, Asthma, Bronchitis, Early Stages of Consumption, Liver Complaint, Diseases of Women, and all other Complaints that lead to Consumption, are treated in a new and eminently successful manner by DR. HALE, who has a permanent office in the Myer's House, Janesville.

Catarrh and Throat Diseases always end in *Consumption*, hence the necessity of consulting a physician devoted to this speciality, before it is too late. Those who are trying patent nostrums, or waiting for the disease to "wear off" should think, while it is yet time, of those who waited but in vain, and gone down to the grave fallen victims to Consumption. Many might have been saved had they checked the disease while it was a Catarrh or Inflamation of the throat.

All are invited to call and investigate DR. HALE'S mode of treatment, practiced by no other physician. Consultation free

Persons unable to apply at the office may consult by letter, when question lists will be furnished them to give an accurate description of their case.

WYNKOOP'S ICELAND PECTORAL.

Diseases of the Throat, Chest, and Pulmonary Organs are ever prevalent, insidious and dangerous. The properties of a medicine to alleviate, cure, and uproot these complaints, must be expectorant, anodyne and invigorating, loosening the mucus of the throat, and imparting tone to the entire system. No discovery in medical science ever mastered this class of diseases like Dr. Wynkoop's Iceland Pectoral. It is used with the most astonishing results in all cases of Bronchitis, Influenza, Whooping Cough, Diphtheria or Putrid Sore Throat, Asthma, Croup, Coughs, Colds, Nervous Irritability, &c.

The Rev. J. J. POTTER certifies—"that I have used Dr. Wynkoop's Pectoral for several years, myself and in my family, for severe pulmonary complaints, and have recommended it to many others, and have never seen its equal." Rev. J. J. POTTER, Brooklyn, N. Y.

Hundreds and thousands of important testimonials could be produced, showing its remarkable cures and that *it never fails*.

It is composed of pure Iceland Moss, Balm of Gilead, Peruvian Balsam, Elecampane, Comfrey, Burdock, and other invaluable expectorant and tonic ingredients. It is harmless, prompt and lasting. Invalids and sufferers cannot afford to neglect a trial. Every family should have it. It is remarkable for Croup. Full descriptions, recommendations and directions accompany each bottle.

Sold by all the principal Druggists.

Prepared by Dr. R. D. WYNKOOP, and sold by D. S Barnes & Co., New York. aug10dawcowly.

HEIMSTREET'S INIMITABLE HAIR RESTORATIVE.

It is not a DYE, but restores gray hair to its original color, by supplying the capillary tubes with natural sustenance impaired by age or disease. All instantaneous dyes are composed of lunar caustic, destroying the vitality and beauty of the hair, and afford of themselves no dressing. Heimstreet's Inimitable Coloring not only restores hair to its natural color by an easy process, but gives the hair a luxuriant beauty, promotes its growth, prevents its falling off, eradicates dandruff, and imparts health and pleasantness to the head. It has stood the test of time; being the original Hair coloring, and is constantly increasing in favor. Used by both gentlemen and ladies. BADGER!

1862! 1863! 1864!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFORE KNOWN AS

THE JESSUP DRILL!!

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called the BADGER. The Badger possesses all the good qualities of the old drill, and many valuable improvements.

The feeding principle of the new Drill is the same as the old, but the working arrangement is quite different, and very much improved.

The workmanship is also much better than the old Drill. We will not claim that the Badger is better made than other Drills, but will say that it is made by experienced workmen, under my own supervision, and am willing that it should be compared with the best Drill made.

The frames are made of summer seasoned white ash, from the forests of Indiana. The poles and rolls are dried ash from Jefferson county. The hubs, and other castings, are from the reliable Rock River Iron Works of James Harris & Co. The various sizes of wrought iron are from numerous rolling mills of Pittsbuargh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Nimick & Co. The follees are from the Ohio State Prison, located at Columbus, Ohio. The spokes are of dry white oak, from Northern Wisconsin. The chains are from Wm. Fredericks, Germany. No pains have been spared to obtain the best material—the workmanship will show for itself.

To those who know the old Drill it is only necessary to say that the Badger is like it—only better. To those who are not acquainted with the old Drill, we would say that the Badger Drill is more accurate in its feeding than any other drill introduced.

That it is lighter draft and easier for the team than any Drill yet introduced into this market.

That it will distribute any kind of grain grown in this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good and workmanlike manner, all that is required of any Drill. If, on trial, it does not perform, it can be returned to the manufacturer, and all damage will be paid to the purchaser.

In consequence of the large advance in cost of all kinds of material, the Badger must be sold at advanced prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill	$75	11 Tooth Drill	$85
10 Tooth Drill	80	12 Tooth Drill	90

Five dollars added for Grass Seeder. Four horse Drills will be made to order on short notice.
Price of 17th tooth Drill and Seeder, $120.

MISCELLANEOUS.

THE BEST IS ALWAYS THE CHEAPEST!

WARRANTED!

COG WHEELS!

SELF-ADJUSTING & ADJUSTABLE.

It is the best and only reliable wringer before the people. It is the most durable machine made, and combine more strength of frame, capacity for pressure and power of action than any of the cheap, NO COG wringers in the market.

Without cog wheels the whole strain of forcing the cloth through the machine is put upon the lower roll, and the cloth is made to act in the place of cog wheels, to drive the upper roll, causing three times as much strain upon the lower roll as when cog-wheels with our Patent Regulator are used, besides the extra strain upon the cloth. Experience shows that Clothes Wringers without cog-wheels cannot be depended upon.

We have seven sizes, from $5.00 to $30. The ordinary family sizes are No. 1, $10, and No. 2, $7. They have COG WHEELS and are warranted in every particular.

It was pronounced superior to all others at the World's Fair at London, 1862. It took the FIRST PREMIUM at the great Fair of the American Institute, New York City, 1863, where the judges were practical mechanics, and appreciated COG-WHEELS.

It took the FIRST PREMIUM at the

New York State Fair	1862 and 1862
Vermont State Fair	1863
Pennsylvania State Fair	1862
Iowa State Fair	1863
Illinois State Fair	1863
Michigan State Fair	1863

And at County Fairs without number.

It will wring anything from a lace collar to a bed quilt. It will wring clothes out of boiling hot or freezing cold water.

If You Don't Believe it, Try it!

We ask none to buy without a thorough test, for which abundant opportunity will be given to all.

Furnished to families on trial free of expense.

Sold in Rock County by James Holms, Centre; Dann & Bro., Janesville; Henry Cheney, Johnstown; H. S. Gould, Milton, and J. M. Sweet, Union.

FLORENCE SEWING MACHINE

Over the Post Office!

There is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it; alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY!

Who take pleasure in placing their machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantages of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our machines will be promptly answered. Enclose a letter stamp and we will send circular and sample of work by return mail.

DR. V. CLARENCE PRICE,

ANALYTICAL PHYSICIAN

LATE OF BUFFALO, N. Y.

Notice for January, 1864.

It will be remembered that Dr. Price has visited Janesville for three years, restored to health many suffering from affections of the Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsia, Fits, Asthma, Scrofula, Dropsies, Female Complaints, and other diseases called chronic, most having dispaired of a recovery. To the cure of chronic diseases in their various forms and stages, Dr. Price devotes his whole attention. He is not reviving an old worn out system advocated years ago by speculative adventurers, but a method of treatment of twenty years standing, and still pursued in the east with unparalleled success. A system founded on truth, no trifling sacrificing of life to experiments. Knowledge we contend for, not speculation, experiment and quackery! We use no minerals or destructive agent, nor exhaust the energies nor injure the constitution, nor make sick to make well, tear down to build up. We invite honorable investigation, feeling that our cause is just. Those sick and discouraged call upon us—advice gratuitous. Our Philosophy of practice is founded on the Laws of Nature. Our theory of disease the theory of Experience and Evidence—our Materia Medica the boundless forest!
